Here is how to connect your spa to your home network

1. Download the Arctic Spas app on to your device.
2. In the lower right corner of the main app screen select **“SETUP NEW SPA”**(**img 1.1**)
3. Verify your topside is the one shown in the image provided after selecting setup new spa.
4. You will then be asked if the spa is a new connection or has been setup before. Choose **“SETUP NEW CONNECTION”**
5. Press and hold pump 3 until you see AP, Once AP appears let go and await AP UP
6. Once you see Ap Up. Go to your devices WIFI settings. Join the hotspot **“MyArcticSpaAP”**. **Password: 1234567890** (**img 1.2**)
7. Go back to your app. Find your home network and select it from the list of available networks. **img 1.3**
8. Ensure the network name is entered and enter your password.
9. Wait for the spa and the device to connect. They are connected when the arrow appears above the WIFI symbol on the topside panel (**img 1.4**)
10. WIFI set up is now complete . If you need to create an account please proceed to document
